

Access LabConnect by browsing to www.labconnect.co.nz in your browser.

New fields have been added to the **Shelf Life sample template**, making it easier to enter required information.

New fields:

- **Testing Time**
- **Timepoint**
- **Base Date** which is the *Manufacturing Date*
- **Storage Condition**
- **Sample Condition**
- **Container Type**
- **Condition**

The **Base Date** and **Timepoint** are used to auto-calculate the **Testing Date**

On the Summary page of your registration, select **Shelf Life** from the **sample template** and **registration type** drop down options.

The selected **Sample Template** will define which **sample detail fields** appear when registering your sample/s.

Select **Shelf Life** from the **Sample Template** and **Registration Type** drop down options

The new fields can be seen on the **Sample Information** page and the **Samples and Test table**.

The **Testing Date** will be auto-calculated *after submission*, based on the data you enter into the **Base Date** (*Manufacturing Date*) and **Timepoint** fields. This field is greyed out and cannot be edited.

Testing time is a mandatory field.

Select **Yes** to show all optional additional **sample details fields**.

This includes the new Shelf-Life fields:

- **Base Date**
- **Timepoint**
- **Storage Condition**
- **Sample Condition**
- **Container Type**
- **Condition**

Enter the **Base Date** (*Manufacturing Date*) and **Timepoint** to ensure the correct **Testing Date** is auto-calculated once submitted

The **Testing Time**, **Base Date**, and **Timepoint** can also be added and updated on the **Samples and Test table**. Simply click on the required field to enter data.

Again, the **Testing Time** field cannot be edited as it is auto-calculated once submitted.

Duplicate

Once your samples have been received at AsureQuality, your submission will move to the **in-progress tab** on the LabConnect Dashboard.

The **Testing Date** has now been auto-calculated and can be seen on the **Samples and Tests tab** on the submission.
